**MOTION FOR PROTECTIVE TREATMENT AND
BASIS FOR FILING EXHIBIT C AS TRADE SECRET**

Introduction

Network Innovations, Inc. ("Applicant"), by its attorneys and pursuant to S.C. Code Ann. § 39-8-10, *et seq.*, and all other applicable rules, statutes and regulations, hereby files this Motion for Protective Treatment ("Motion") in the above-captioned proceeding. By this Motion, the Applicant seeks protective treatment by the South Carolina Public Service Commission ("Commission"), of certain commercially-sensitive financial statements attached as *Exhibit C*, filed as Trade Secret to the Application of Network Innovations, Inc. for a Certificate of Public Convenience and Necessity to Provide Resold Intrastate Interexchange Telecommunications Services and Alternative Regulation of its Interexchange Service Offerings ("Application"). Because this Motion is an inseparable part of the Application, it is being filed concurrently therewith.

In support of this Motion, the Applicant provides the following:

I. Description of Confidential Information.

3. The Application requires the Applicant to disclose evidence of financial fitness through the submission of documentation of its financial resources and ability to provide the requested service. In conformity with this requirement, the Applicant submits copies of its financial statements. These documents contain highly confidential and strictly proprietary information, the public disclosure of which may result in direct, immediate and substantial harm to the competitive position of the Applicant in South Carolina and elsewhere.

II. Grounds for Claim of Confidentiality.

4. The Applicant is presently immune from a legal obligation to prepare or submit projected financial statements, or any other financial information, to any public entity. As such, the financial statements attached as *Exhibit C* to the Application are not readily available to persons external to Applicant.

5. Because the projected financial statements submitted by the Applicant in support of the Application contain confidential and commercially-sensitive information from which its competitors may derive economic value, the Applicant seeks to protect such material from public disclosure. The Applicant derives independent economic value from the fact that significant, detailed and proprietary information regarding its financial structure and current financing activities is unknown to its competitors. As such, the Company's financial statements are a "trade secret" as that term is used in South Carolina Trade Secrets Act. *S.C. Code Section 39-8-20(5)*. Given this fact, the disclosure of this information could provide existing and potential competitors, including interexchange carriers ("DCCs") in South Carolina, as well as in other states in which the Applicant provides or intends to provide telecommunications service, with an unfair and undeserved competitive advantage.

6. The Applicant clarifies herein that its request for protection applies only to the documents attached as *Exhibit C* to the Application. The Applicant is not seeking protection of any type for those reports the Applicant is required to file with the Office of Regulatory Staff ("ORS") should the relief sought in the Application be granted: the Annual Report Form, Gross Receipts Report, and Universal Service Fund Worksheet.

CONCLUSION

7. The audited financial information included in support of the Applicant's Application, for which Confidential Treatment is sought, is both proprietary and competitively-sensitive. The substantial and direct harm that could be caused to the Applicant as a result of

any disclosure is real and not speculative. Moreover, to date, no other jurisdiction or governmental agency has required the Applicant to make this information available to the public. For all these reasons, the projected financial statements attached as *Exhibit C* to the Application should be protected from public disclosure by the Commission.

WHEREFORE, the Applicant respectfully requests that the South Carolina Public Service Commission grant this Motion for Protective Treatment with respect to the audited financial statements attached as *Exhibit C* to the Application of Network Innovations, Inc., for a Certificate of Public Convenience and Necessity to Provide Resold Intrastate Interexchange Telecommunications Services and Alternative Regulation of its Interexchange Service Offerings filed *under seal* as Confidential in this proceeding.

Dated this 29th day of December, 2009

APPLICATION OF NETWORK INNOVATIONS,
INC. FOR A CERTIFICATE OF PUBLIC CONVENIENCE
AND NECESSITY TO PROVIDE RESOLD INTRASTATE) DOCKET NO.
INTEREXCHANGE TELECOMMUNICATIONS SERVICES
AND ALTERNATIVE REGULATION OF ITS
INTEREXCHANGE SERVICE OFFERINGS

Network Innovations, Inc. (hereinafter "Applicant") pursuant to S.C. The Company does not propose to offer any residential services. The customers are not assigned telephone numbers.

When a customer orders service from the Company the underlying carrier of least cost for the service area is determined and a service order is placed. 4. Description of Applicant

Applicant is a private corporation that was incorporated in the state of Illinois on October 26, 2001. Certificates of Incorporation and Authority to Transact Business in the State of South Carolina are attached hereto as Exhibit A.

5. Officers and Directors and Legal Counsel

See Exhibit B

6. Customer Service

Applicant understands the importance of effective customer service for its consumers. Applicant has made arrangements for its customers to call the Company at its toll-free customer service number, (888) 450-2100. In addition, Customers may contact the Company in writing at the headquarters address and via e-mail at info@nitelecom.com. The toll-free number will be printed on the customers' monthly billing statements.

7. Financial Ability

Applicant has sufficient financial resources to operate in South Carolina. In support of the Company's financial ability to provide the proposed services, the Applicant offers its financial statements in Exhibit C.

8. Managerial and Technical Ability

Exhibit D contains a brief overview of the managerial experience of Applicant. The Company has the managerial experience in the telecommunications industry that will allow it to be a successful in providing Interexchange and competitive local exchange telecommunications services.

9. Proposed Service Territory

Applicant proposes to offer resold Intrastate Interexchange services throughout the State of South Carolina. Exhibit E contains the proposed interexchange tariff of Applicant.

10. Public Interest and Need

Approval of this application and Applicant's proposed tariffs will serve the public interest and offer several benefits to consumers in South Carolina. First and foremost, Applicant will offer its Customers the ability to have seamless service for intrastate, interstate and international data services.

The granting of Applicant's application is consistent with S.C. Code Ann. §58-9-280(B), as amended by 1996 Act No. 354, and, in that regarding Applicant makes the following representations to the Commission:

- A. Applicant possesses the technical, financial, and managerial resources sufficient to provide the services requested;
- B. Applicant, to the extent it is required to do so by the Commission, will participate in the support of universally available telephone service at affordable rates; and,

11. Waivers and Regulatory Compliance

Applicant requests that the Commission grant it a waiver of those regulatory requirements inapplicable to interexchange providers. Such rules are not appropriate for competitive providers and constitute an economic barrier to entry into the interexchange market.

- A. Applicant requests that it be exempt from any financial recording rules or regulations that require a carrier to maintain its financial records in conformance with the Uniform System of Accounts ("USOA"). As a competitive provider, Applicant currently maintains its books and records in accordance with Generally Accepted Accounting Principles ("GAAP"). GAAP is used extensively by interexchange carriers. Since Applicant utilizes GAAP, the Commission will have a reliable method by which to evaluate Applicant's operations. Therefore, Applicant requests to be exempt from any and all USOA requirements of the Commission.
- B. In addition, Applicant requests a waiver of S.C. Reg. 103-610, and to be allowed to maintain its books and records at its headquarters location at 1101 West Lake Street Chicago, IL 60607. In the event that the Commission finds it necessary to review Applicant's books, this information will be provided upon request to the Commission or Applicant will bear the expense of travel for the Commission staff to examine the books and records located outside of South Carolina.

Applicant reserves the right to seek any regulatory waivers which may be required for Applicant to compete effectively within the states' local exchange and resale market.

12. Alternative Regulation of Business Service Offerings

In Docket No. 95-661-C in response to a Petition for Alternative Regulation by AT&T Communications of the Southern States, the Commission determined that there was sufficient competition in the market for interexchange telecommunication services to justify a relaxation in the manner in which AT&T was regulated. The Commission determined that AT&T was not required to file maximum rates for long distance business service offerings and that its tariffs be presumed valid upon filing, subject to the Commission's right within seven days to institute an investigation of the tariff filing. Applicant submits that as a competitor of AT&T in the market for providing telecommunication services to customers, it should be subject to no regulatory constraints greater than those imposed on AT&T. Applicant requests that its interexchange business services offerings described in its proposed tariff be regulated under this form of relaxed regulation.

This Application demonstrates that Applicant has the technical, financial and managerial resources to provide resold intrastate interexchange service within South Carolina. The granting of this Application will promote the public interest by increasing the level of competition in the telecommunications markets of the state. Competition of this nature will mandate that all interexchange telecommunications providers will operate more efficiently and improve the overall service quality for consumers.

Approval of the Application of Network Innovations Inc. will serve the public interest by offering consumers throughout the State of South Carolina a meaningful quality service option. Approval of this Application will also benefit consumers by creating greater competition in the interexchange marketplace. Competition in the telecommunications marketplace inspires innovation and development of services that meet customer needs cost effectively.

Wherefore, Applicant respectfully petitions this Commission for authority to operate as a reseller of long distance telecommunications services in the State of South Carolina in accordance with this Application for alternative regulation of its long distance business service offerings, and for such other relief as it deems necessary and appropriate.

TARIFF FORMAT

- A. **Sheet Numbering** - Page numbers appear in the upper right corner of the sheet. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between existing pages with whole numbers, a decimal is added. For example, a new page added between pages 34 and 35 would be page 34.1.
- B. **Sheet Revision Numbering** - Revision numbers also appear in the upper right corner of the page. These numbers are used to determine the most current page version on file with the Commission. For example, 4th Revised Page 34 cancels the 3rd Revised Page 34. Consult the check sheet for the page currently in effect.
- C. **Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1.A
 - 2.1.1.A.1
 - 2.1.1.A.1.(a)
 - 2.1.1.A.1.(a).1
 - 2.1.1.A.1.(a).1.(i)
 - 2.1.1.A.1.(a).1.(i).(1)
- D. **Check Sheet** - When a tariff is filed with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the tariff pages, with a cross reference to the current revision number. When new sheets are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made. The tariff user should refer to the latest check sheet to find out if a particular page is the most current on file with the Commission.

Chargeable time begins at the time a connection is established and ends when either party terminates the connection.
- 3.1.2 No charges apply if a connection is not established.
- 3.1.3 For billing purposes, all Calls are rounded up to the nearest minute and billed in increments of one minute. The minimum call duration is one (1) minute for a connected call.
- 3.1.4 Where applicable, charges will be rounded up to the nearest penny.
- 3.1.5 Usage begins when a connection is established (*i.e.* when two-way communication is possible). A Call is terminated when the calling or called party terminates the connection. Any Call for which the duration exceeds sixty (60) seconds shall be presumed to have been answered and becomes billed usage.

SECTION 3 - DESCRIPTION OF SERVICE (Cont'd)**3.2 Start of Billing**

For billing purposes, the start of service is the day following acceptance by the Customer of the Company's service or equipment, or another date mutually agreed-upon by the Customer and the Company. The end of service date is the last day of the minimum notification of cancellation or any portion of the last day, after receipt by the Company of notification of cancellation as described in Section 2 of this tariff.

3.3 Calculation of Distance

3.3.1 Where applicable, usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call.

3.3.2 Where applicable, the airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved. The Company uses the rate centers that are produced by Bell Communications Research in their NPA-NXX V&H Coordinates Tape and Bell's NECA Tariff No. 4.

3.3.2.A The airline distance between any two (2) rate centers is determined as follows:

3.3.2.B Obtain the "V" (vertical) and "H" (horizontal) coordinates for each Rate Center from the above-referenced document.

3.3.2.B.1 Compute the difference between the "V" coordinates of the two (2) rate centers; and the difference between the two (2) "H" coordinates ($X1 - X2 = V$; $Y1 - Y2 = H$).

3.3.2.B.2 Square each difference obtained in Section 3.3.2.B.1 above (V^2 ; H^2).

3.3.2.B.3 Add the square of the "V" difference and the square of the "H" difference obtained in Section 3.3.2.B.2 above ($V^2 + H^2 = S$).

3.3.2.B. (Cont'd)

3.3.2.B.4 Divide the sum of the squares by 10 ($S/10 = M$).

3.3.2.B.5 Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

3.4 Minimum Call Completion Rate

The Customer can expect a Call completion rate of at least ninety percent (90%) of all Calls attempted, within three (3) seconds of the attempt, during peak use periods for all Feature Group D (1+) services. The Company will engineer its switching systems on the basis that at least ninety percent (90%) of the Customers accessing their system will be served during the Busy Hour.

SECTION 3 - DESCRIPTION OF SERVICE (Cont'd)

3.5 Service Offerings

The Company offers data telecommunications and leased line services. The Customer's total use of the Company's service is charged at the applicable rates set forth herein, in addition to any monthly service charges. None of the service offerings are time-of-day sensitive.

For leased line telecommunications services, the Company offers rates on a "month to month" basis, and on a term agreement contract basis. Rates are based on a number of factors, including Customer commitment to a volume of service for a fixed term of months.

The following services are available from the Company, where technically and economically feasible:

3.5.1 Leased Line Service

A leased line is a private, dedicated point-to-point connection between a Company POP and another point on the Company's fiber-optic network specified by the Customer. Leased Line service is provided to Customers on a nationwide basis with transmission speeds of either DS1 (1.544 Mbps), DS3 (44.736 Mbps), OC3 (155.52 Mbps), OC12 (622.08 Mbps) and OC48 (2,488.32 Mbps). A local access line may be necessary to connect the Customer network or premise with the Company POP. This local access line may be provided to the Customer by the Customer's local exchange carrier.

SECTION 3 - DESCRIPTION OF SERVICE (Cont'd)

3.6 Miscellaneous Services

3.6.1 Order Change

An Order Change is a change in the Customer's service requested subsequent to installation.

3.6.2 Bad Check Charge

If payment for Service is made by a check, draft, or similar instrument (collectively "Check") that is returned to the Company unpaid by a bank or another financial institution for any reason, the Company will bill the Customer a returned check charge. In addition, the Customer may be required to replace the returned Check with a payment in cash or equivalent to cash, such as cashier's check, certified check or money order.

3.6.3 Reconnection

Reconnection charges occur where service to an existing Customer has been discontinued for proper cause, and the Customer desires to resume service with the Company. Where a Customer desires reconnection, the Customer will be charged a fee to cover the cost to the Company of restoring service to the Customer.

3.7 Promotions

The Company may make promotional offerings of its tariffed services which may include reducing or waiving applicable charges for the promoted service. No individual promotional offering will exceed six months in duration, and any promotional offering will be extended on a non-discriminatory basis to any customer similarly classified who requests the specific offer. At the Company's option, a letter outlining the promotion may be filed with the Commission Staff in lieu of filing language in the tariff.

SECTION 3 - DESCRIPTION OF SERVICE (Cont'd)

3.8 Individual Case Basis Arrangements ("ICB")

A determination that the Customer's service requirements can only be satisfied by a complex Customer-Carrier arrangement for which it is difficult or impossible to establish general tariff provisions. ICB rates will be structured to recover the Company's cost of providing service and will be made available to similarly situated customers in a non-discriminatory manner. Terms of the specific ICB contracts will be made available to the Commission staff on a confidential basis upon staff's written request to the Company.

<u>Volume</u>	<u>Term of Contract in Months</u>			
	12	18	24	36
\$1,000.00	5%	7%	9%	11%
\$2,000.00	7%	9%	11%	13%
\$3,000.00	9%	11%	13%	15%
\$4,000.00	11%	13%	15%	17%
\$5,000.00	13%	15%	17%	19%
\$6,000.00	15%	17%	19%	21%
\$7,000.00	17%	19%	21%	23%
\$8,000.00	19%	21%	23%	25%
\$9,000.00	21%	23%	25%	27%
\$10,000.00	23%	25%	27%	29%

Note: All Volume Discounts are applied when the End User reaches the specified level. Volume amounts over the next lower increment will be rounded down to that lower increment. Volume discounts are based on the gross monthly cost of service and are applied to the base rate per circuit, per month.

Example: End User orders 8 DS1 circuits on a 36 month contract.

Base Rate per DS1 for a 36 Mo. Contract = \$549.00

Multiplied by 8 circuits, Gross Monthly Cost = \$4392.00

Volume Discount to apply at the \$4,000.00 level = 17%

Net Monthly Cost after discounts = \$3645.36 or \$455.67 per DS-1
